

### What we do

BBMC delivers high-quality products and services for the orthopaedic sector. In a sustainable partnership with our professional clients, we offer them three activities :

#### 1. Subcontracting production

##### a. Workshop 'bandages': orthopaedic sewing workshop for your bandages made to measure

- lumbar supports, abdominal belts, orthopaedic corsets and all your other bandages made to measure
- mass-production of your bandages and components to make you stand out in the market: velcro strips, pelvic corsets, leg straps, arm abduction slings, pelvic belts, knee immobilisers, ice packs, pavlik harnesses, hip bandages, etc.

##### b. Workshop 'insoles': orthopaedic insoles made to measure

- insoles in cork & leather, insoles in EVA, sports insoles, elegant insoles, insoles for children, insoles for halux rigidus, insoles with heel damping and insoles for plantar fasciitis

##### c. Flexible Sewing Workshop

Due to a structural shortage of skilled sewing capacity, we are seeing a growing need among orthopaedic companies and other industries for flexible and experienced partners capable of providing custom-made solutions, production runs, components and repairs.

We also increasingly work for manufacturers in the following sectors : security, fashion and technical textiles. Our services cover small production runs, prototypes, pre-series, components and repairs. We work strictly according to specifications, with full respect for materials, delivery schedules and confidentiality. Both one-off assignments and long-term partnerships are possible.

#### 2. Distribution of materials for orthopaedic workshops

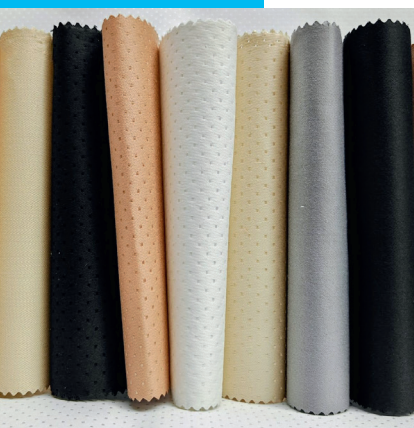

- Corset fabrics, elastics, steel loops, plastic loops, buckles & clips, velcro strips, ribs/strips, suspenders, scissors, etc.
- Stainless steel strips, plastics, cushioning materials, plaster bandages, casting resins, foam resins, carbon and related materials, colouring paper, lamination fabric, etc.

#### 3. Manufacturer of Corset Fabrics

BMC is the last remaining manufacturer of corset fabrics in the Benelux and one of the few still operating in Europe. Following the acquisition of our former supplier in 2024, we have continued this specialised craftsmanship in-house. Thanks to local production, we combine consistently high quality with short lead times and extensive technical expertise.

Our corset fabrics are used by orthopaedic companies and bandagists, corsetry and lingerie manufacturers, fashion houses, and costume workshops serving the theatre and opera industries. For these markets, we have developed three fabric types :

- Corset Fabric : 100% cotton; 360 g/m<sup>2</sup>; available in cream, nude, black and grey
- Lining Fabric : 100% cotton; 260 g/m<sup>2</sup>; available in cream, nude, black and grey
- Broché Point : 95% cotton 5% viscose; 360 g/m<sup>2</sup>; available in cream, nude, black and white (Broché is also referred to as 'Jacquard'; it is a fabric with a woven-in decorative pattern).

### Avantages

#### High-quality products

Our close cooperation with customers and attention to innovation and new developments mean that we have the best products in house.

#### Integrated range of products and services

In addition to a large stock, BMC also has workshops that are capable of carrying out their own production and custom work. This means we possess an integrated range of orthopaedic products and services.

#### Customer-oriented service

By investing in a large stock and customer-oriented employees, we can provide our customers with fast and high-quality service.

#### BMC and Dirame Ortho launch partnership for the orthopaedic sector

**Dirame Ortho** has acquired a stake in **BMC**. Both companies have long been active in the orthopaedic market, in both Belgium and Europe. They have complementary operations and offer a comprehensive range of products and services to orthopaedic companies and bandagists.

For over 40 years, **Dirame Ortho** has been a leading distributor of prefabricated orthoses and supports, components for technical orthopaedics, and therapeutic and comfort footwear.

**Dirame Ortho N.V.**, Legeweg 157 A, B-8020 Oostkamp
